

“

WE BUILD TO
STAND THE TEST OF
TIME AND THE TEST
OF THE TERRITORY.

JEFF GREEN

“

FOUR WEEKS

AFTER CYCLONE TRACY HIT DARWIN IN 1974, FOURTEEN-YEAR-OLD JEFF GREEN ARRIVED IN TOWN TO ASSIST HIS FATHER AND MANY OTHER LOCALS WITH THE REBUILDING EFFORT.

AREA STEEL CONSTRUCTION • (08) 8988 4531 • e: sheds@areasteel.com.au • www.areasteel.com.au

This formative experience stayed with Jeff throughout his life. He describes it as an opportunity that shaped his career both as a Boilermaker & builder; defining his whole thinking towards the level of structural integrity that is truly required here. As founder and Managing Director of Area Steel since 1994, Jeff builds that experience into everything the company offers, with the company motto being, "We build to stand the test of time and the test of the Territory".

Whether it's hot form (welded) or heavily modified cold form (bolted and screwed) sheds, Area Steel customers can purchase safe in the knowledge that they are getting the strongest sheds in the Territory, that will indeed be put to the test every wet season.

Having seen Darwin "grow up" over the last four decades, Jeff has enjoyed contributing to the local business environment over this time. As a fully independent company, Area Steel are registered builders with all staff being fully trade certified. Jeff is proud of the company's impeccable safety record and firmly backs each product, as evidenced by the extensive written guarantees within the handover documentation provided on each build.

A shed is an investment for any property and is never money wasted; even for a more indulgent purpose like a man cave or she shed. For most blokes, there's no such thing as too big a shed however Jeff says surprisingly, it's the women who are often the ones driving the push for a bigger shed as they want to get all their husband's gear off the verandah!
